

## Buy Local. Make a Difference.

### WHAT IS TOGETHER GLOUCESTERSHIRE?

Together Gloucestershire is a not-for-profit initiative that helps large public and private sector organisations find and work with trusted local suppliers across the county.

It brings together businesses, charities and social enterprises in one place, making it easier to buy locally, strengthen supply chains, and support Gloucestershire's economy, environment and communities — backed by local authorities and major employers.

### WHY USE IT?

Every search on Together Gloucestershire is a chance to make a positive local impact.

By using the platform, you can:

- Discover **local suppliers you may not know exist**
- Support **small businesses and charities** in the county
- \* Reduce supply-chain risk and travel emissions
- \* Contribute to **social value and sustainability goals** in a practical way

Whether you're looking for a service today or planning future procurement, Together Gloucestershire helps you find the best local suppliers quickly and confidently.

### USING TOGETHER GLOUCESTERSHIRE IS EASY.

Follow the steps to the right to log in, search the database, and connect directly with local suppliers who are ready to work with organisations like yours. Even a quick search can uncover new local options and help build a stronger, more resilient Gloucestershire economy.

### HOW TO USE TOGETHER GLOUCESTERSHIRE

Using your browser head over to **database.togethergloucestershire.co.uk** and click Log in **1**.

Enter your email address. This must use your organisation's email domain (for example, *yourname@yourbusiness.co.uk*).

Shortly after you'll receive a one-time passcode by email. Enter this code to log in to the database.

Use the search bar **2** to look for the product or service you need to source.

Apply filters **3** to narrow down the results and find the most suitable suppliers.

Click on a company to view their profile **4** and learn more about their services.

Contact the supplier directly through the platform **5**.

You can use the default message or personalise it. The supplier will receive your message and can respond directly.
